**Exercise #15: Intersectionality**

**Name:**

**Assignment:** Pick two of your identities and write about how they intersect. At least one of the identities should be one of the ones we decided had oppression or discrimination related to them. Here are some questions to get you started:

- What are the two identities you are picking?
- Do you usually think of them as connected?
- How is your experience of the first one affected by the second? How is the second affected by the first?
- How would each of these identities be different if you did not have the other?
- Write about one moment in which you experienced the intersection of the two.
